

Vehicle Inspection Report

Safety and Compliance Services

Vehicle Inspection Report (VIR)

Regulations require that you inspect your truck and trailer every day. VIR lets you complete these inspections paperlessly on the IVG.

You need to know how to:

- Access the VIR application.
- Create vehicle and trailer inspection reports.
- Fill out defect information and sign and submit your reports.
- View previous inspections.
- Acknowledge and close existing reports after verifying defect corrections.

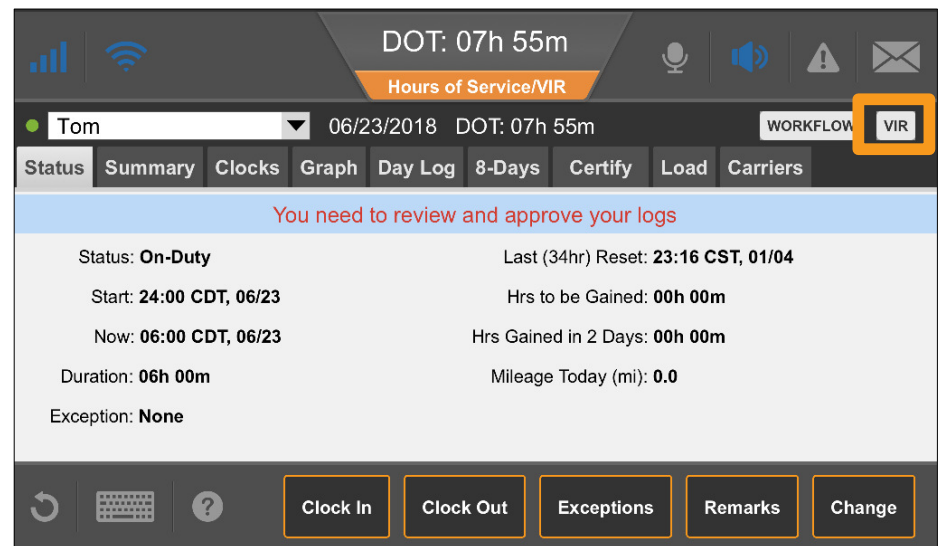

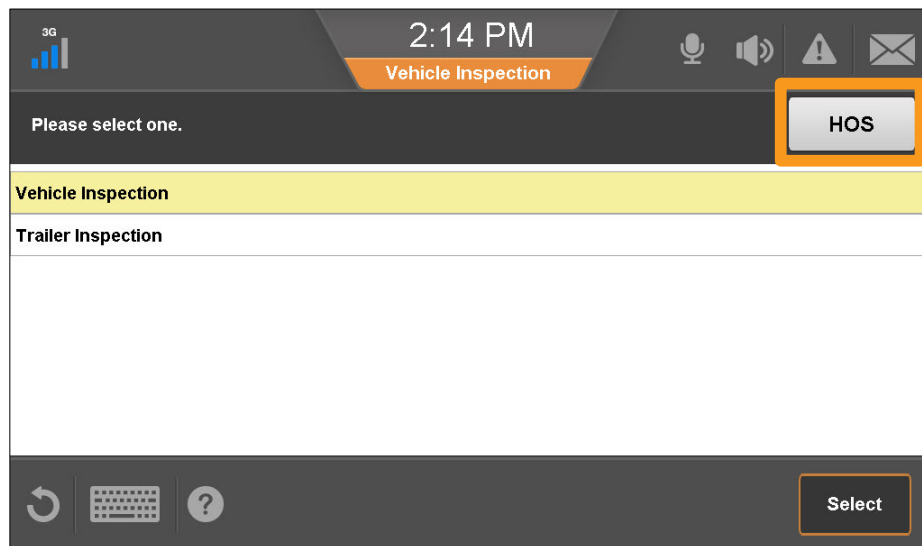

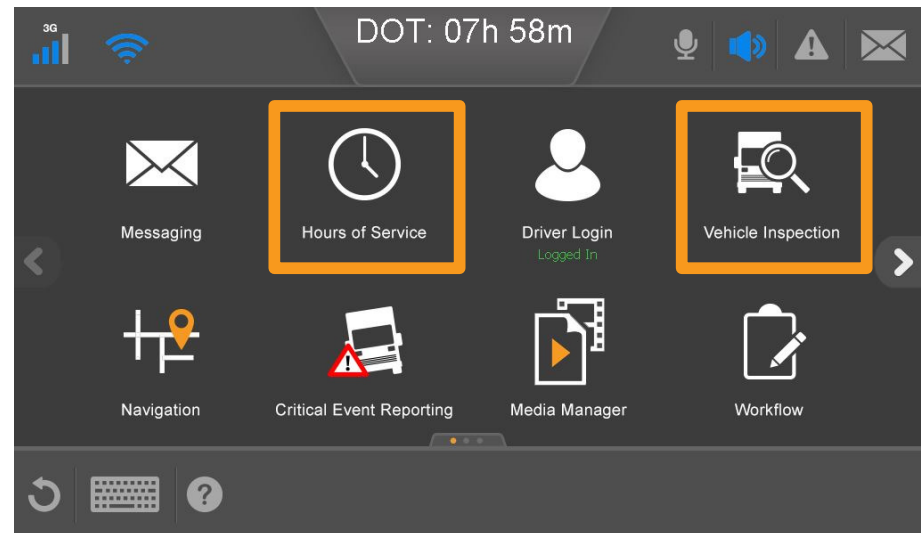

The screenshot shows the 'Vehicle Inspection' application interface. At the top, it displays '3G' signal strength, 'DOT: 03h 52m', and 'Vehicle Inspection' title. Below the title, there are radio buttons for 'Any Defects?' with 'Yes' selected. A section titled 'Check box for each defect.' contains a grid of 12 items with checkboxes. The checked items are 'Air Compressor, Hoses', 'Brakes and Accessories', 'Fuel and Oil', and 'Safety Equipment'. At the bottom, there are navigation icons (refresh, keyboard, help) and two buttons: 'Cancel' and 'Next Page'.

Accessing the VIR Application

If your company uses Hours of Service (HOS), both application names appear on the Hours of Service menu button.

You can switch between VIR and HOS from within either application.

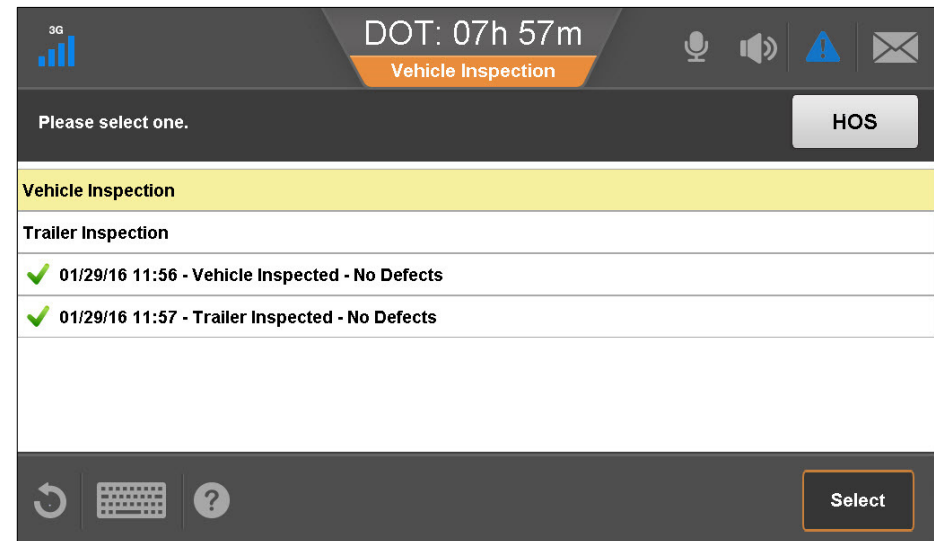

Send Vehicle Inspection

1. Open Vehicle Inspection Report:
 - From within the HOS application (VIR button).
 - From the “Hours of Service/VIR” button on the home menu.
 - From the “Vehicle Inspection” button on the home menu.
2. Tap an inspection report.
3. Tap Select.
4. Tap:

No if there are no defects found.

OR

Yes to create a defect report.

Cancel Prev Page Done

Send Vehicle Inspection

The logged-in driver's ID displays as the signature for the report.

8. Type the truck number for which this VIR is being completed.
9. Tap Done.

The screenshot shows a mobile application interface for a "Vehicle Inspection". At the top, there is a status bar with "3G" signal strength, a battery icon, and a timer showing "DOT: 03h 51m". Below the status bar, the title "Vehicle Inspection" is displayed. The main content area has a header "Vehicle Inspection" and a text input field labeled "Describe Defects:" containing the text "Problems with some critical systems". Below this, there is a signature line that reads "I have examined the vehicle indicated, including the parts and accessories." followed by "Your Signature: FARRU" and "Truck Number: 53624". The "Truck Number" field is highlighted with an orange box. At the bottom of the screen, there is a navigation bar with three buttons: "Cancel", "Prev Page", and "Done". The "Done" button is highlighted with an orange box.

Trailer Inspection

After completing the inspection, VIR asks if you have a trailer.

In this example, you have a trailer with a defect.

1. Tap Yes.

2. Tap Yes and then tap the check box(es) to indicate the problems you found.

3. Tap Next Page.

The screenshot shows the 'Vehicle Inspection' screen in the VIR application. At the top, it displays 'DOT: 03h 51m' and 'Vehicle Inspection'. A dialog box is overlaid on the screen with a warning icon and the text 'Vehicle inspection completed. Do you have a trailer?'. Below the text are two buttons: 'Yes' and 'No'. The 'Yes' button is highlighted with an orange box. At the bottom of the screen, there are navigation buttons: 'Cancel', 'Prev Page', and 'Done'.

The screenshot shows the 'Trailer Inspection' screen in the VIR application. At the top, it displays 'DOT: 03h 50m' and 'Trailer Inspection'. Below this, there is a section for 'Any Defects?' with radio buttons for 'Yes' (selected) and 'No'. Underneath, it says 'Check box for each defect'. A list of defects is shown with checkboxes: Brakes, Brake Connections (checked), Coupling Devices and Pin, Coupling (King) Pin, Doors, Hitch, Landing Gear, Lights, Reefer (checked), Roof, Suspension, Tarpaulin, Tires (checked), Wheels and Rims, and Other. The entire list of defects is highlighted with an orange box. At the bottom of the screen, there are navigation buttons: 'Cancel' and 'Next Page'. The 'Next Page' button is highlighted with an orange box.

Submit and Inspection with a Defect

1. Enter a description of the defect.
2. “Sign” the form by entering the Trailer ID.
3. Tap Done.
4. Tap OK to acknowledge completion.

Note: Reporting defects from a vehicle inspection is the same process. The result is an open VIR that your company needs to address.

Closing an Open VIR

After sending an inspection report with a defect, the Alert Manager notifies you when Maintenance responds.

1. Tap the Alert to open the VIR.
2. Read the response, check its accuracy, and then tap Next Page.

Closing an Open VIR

You must close the VIR; it is unlawful to drive with an open defect.

1. Tap Yes or No to answer the safety question.
2. Select your name from the drop-down list.
3. Tap Done.

Notes:

- You **cannot** create a new vehicle VIR if an open defect exists.
- You **can** create a new trailer VIR with a pending defect trailer VIR.
- If the repairs are not satisfactory, say “No” to the safety question and then create a new defect VIR.
